EDUCATION

SECONDARY SCHOOL

Aquinas High School
2016 - 2019

BACHELOR OF TECHNOLOGY IN IT

Technical University of Kenya
2021 - 2024

SKILLS

Frontend Skills

HTML5, CSS3, JavaScript (ES6+),
React.js, Bootstrap, vue.js

Backend Skills

Node.js, Express.js, Python/Django
RESTful APIs,

Database

MySQL, MongoDB, SQL Server

System and tools

Git, GitHub, Linux Terminal,
VS Code, Postman
Currently learning: Zoho CRM, Zoho
Mail, Zoho Creator

Data Analysis

Numpy, Pandas, Machine
learning(basics)

SUMMARY

I am a passionate and detail-oriented IT professional with hands-on experience in building impactful and user-friendly digital solutions. With a strong foundation in both frontend and backend technologies—such as JavaScript, React.js, Node.js, Python, Django, MySQL and MongoDB—I have led and contributed to full-stack projects, including a Blood Bank Web Application. My role as a coding and robotics tutor has enhanced my communication, leadership, and mentorship abilities. Currently expanding my expertise in cybersecurity, business development, and cloud technologies, I thrive in collaborative environments, adapt quickly to new tools and challenges, and am committed to continuous learning and delivering high-quality results.

EXPERIENCE

CODING TUTOR

ELITE CODEHUB

2024 january- March 2025

- Delivered hands-on training in JavaScript, Python, and web development to students, focusing on real-world applications and logic-building skills.
- Designed and led structured lessons on programming fundamentals, robotics, and project-based learning.
- Mentored learners on building interactive web apps, encouraging creativity and problem-solving.
- Assessed student progress and provided personalized feedback to enhance understanding and growth.
- Promoted a collaborative, inclusive, and tech-driven learning environment that sparked curiosity and innovation.

CERTIFICATIONS

Web Development – eMobilis Institute of Technology

- Learned full-stack web development using Django framework and Python.
- Developed and deployed dynamic web applications.
- Gained practical experience integrating M-Pesa STK Push payment API.
- Strengthened knowledge in HTML, CSS, JavaScript, and RESTful API design.

Cisco Certified Ethical Hacker (CCEH) – Cyber Shujaa

- Trained in ethical hacking principles, penetration testing, and vulnerability assessment.
- Gained proficiency in identifying and mitigating system and network security threats.
- Applied cybersecurity tools and techniques for simulated attack analysis.

Cybersecurity Analyst – Cyber Shujaa / USIU (Ongoing)

- Learning threat detection, incident response, and digital forensics.
- Developing expertise in SIEM tools, risk assessment, and network defense.
- Gaining hands-on experience in analyzing and mitigating cyber incidents.

Entrepreneurship and Business – Cyber Shujaa

- Learning entrepreneurial thinking, innovation strategies, and business planning.
- Developing skills in project management, team leadership, and business growth.

CyberOps Associate and DevNet Associate –Cisco

Networking Academy (ongoing)

- Studying cyber operations, network defense, and incident response workflows.
- Learning to monitor, detect, and analyze network security events.
- Learning network automation, API integration, and DevSecOps principles.
- Applying coding and infrastructure management for secure, scalable systems.
